nose
mouth
tail

WHAT DO I EAT?

On the farm we know that different animals eat different foods. Some only eat meat, some only eat plants and vegetables and some animals can eat both! Can you draw a line between the animal and the type of food they eat?

Herbivore

only eats plants

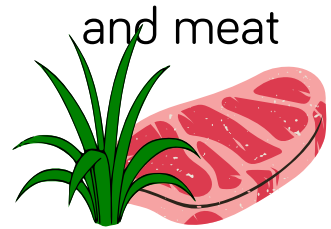

Carnivore

only eats meat

Omnivore

Eat both plants
and meat

Can you spot me ?

Fish, amphibians, insects, birds and mammals love to live in lots of different habitats. Who can you spot in our pond area?
Circle the animals that you spot.

Food chain

Can you draw pictures to complete this food chain?

Grass

Worm

Chicken

Food chain

Can you make your own food chain using one of the animals you've met today?
